Bilateral Meetings

- Tuesday (09:00 am - 01:30 pm)

Description

Sichuan Yunshi Green Technology Co., Ltd. aims to serve the local Tibetan regions and developing their industry. It aims to build an ethnic Tibetan region information platform. In order to provide the Tibetan people with a better alternative for selling and marketing their products, this company is using software development, system integration, and network engineering to build a team to aid the local people's growing business needs. Through this technology, the company then develops the R & D, production, sales, and service of the local people. The company has four departments : Yunshi Jinyi Cultural Education, Yunshi Software Development and Network Engineering, Yunshi Digital Equipment Research, Yunshi Green Ecological Agriculture Department. They company also has three internal business departments: Human Resources, Finance, and Administration. The company has built a computer lab in collaboration with Southwest University for Nationalities, a web-based local word-processing lab center (branch-level), and a workstation of minorities digital application in collaboration with the committee of ethnic information technology groups in southwestern China (provincial level). It also carried out technical cooperation with Sichuan University and University of Electronic Science and Technology of China, together developing software and hardware facilities for construction of Tibet's digital market. The company provides the most professional and convenient digital and information service for the Tibetan areas' (TAR, Sichuan Ganzi Area, Aba Area, Lingshan Area) education, administration, living, and entertainment needs. Yunshi Technology is located in Chengdu. Their goal is to provide the most professional and convenient service to local bilingual government affairs, bilingual official business, bilingual education, bilingual living conditions and bilingual government and enterprises affairs of southwestern China. 四川省云时绿色科技有限公司“四川省民族地区信息服务平台”建设
