

DB Schenker/Schenker Italiana spa

<http://www.dbschenker.com>

Bilateral Meetings

- Tuesday (09:00 am - 01:30 pm)

Description

DB Schenker stands for the transportation and logistics activities of Deutsche Bahn. The Logistics sector of DB is the world's second largest transportation and logistics services provider based on revenues and performance.

In financial year 2014, DB Schenker generated revenues of around 19,8 billion euros, approximately 50 percent of the DB Group's revenues. Through its Transportation and Logistics Division, DB holds top positions in global air and ocean freight and has Europe's densest land transport network and the rail expertise of Europe's largest rail freight company.

With around 2,000 locations in all of the world's most important economic regions, DB Schenker has a global network geared toward customer service, quality and sustainability. This success is owed primarily to DB Schenker's 95,700 employees, all of whom place customer satisfaction and quality at the center of their work.

DB Schenker stands for performance, service and safety, regardless of the complexity or extent of logistics tasks and requirements. We are well equipped for any and all challenges thanks to our robust business model. Merging international markets and increasing flows of goods are challenges we face every day, and at the same time are what drives our business. Our customers, from regional family-owned companies to international corporations, must be able to act with increasing speed and flexibility - and on a global scale. Whether in terms of procurement, production or sales markets.

world wide logistic service provider

XXXXXXXXXXXX

Organization Type

Big Company / corporation
