

Sichuan Lvneng Environment Technology Incorporated 四川省乐能环境技术有限公司

Bilateral Meetings

- Tuesday (09:00 am - 01:30 pm)

Description

Sichuan Lvneng Environment Technology Incorporated was established in August 2013. Its business range includes: R&D and promotion of environment technology, cleaning, collection and transport of civil waste, investment in and operation of compressing and transit shipment of civil waste, sorting, collection and handling of civil waste. We have a professional team comprising 32 management staff members, 13 of whom are specialized engineers. We have partnerships with several domestic and overseas universities, and have established long-term cooperation with a number of Chinese enterprises on training, technical support, R&D of equipment. An ongoing project concerning civil waste compressing and transit shipment is taking a technical lead, as it is the first case in China to apply the waste transit vehicle powered by LNG.
