Bilateral Meetings

- Tuesday (09:00 am - 01:30 pm)

Description

A company active in the automotive industry: management of company cars for customers with VAT numbers.

C-Rent takes care of supporting its customers or potential customers in the choice, bureaucracy and management of their company car.

Our target ranges from the self-employed entrepreneur to joint stock companies.

Long-term rents are the most chosen solutions (both as cars or larger motor vehicles up to 35 tons capacity). Our offer range includes also short-term rents.

We are deeply convinced that long-term rents are bound to replace the traditional purchasing formula or leasing solutions though we can still support our customers even in these forms of management. We attach the uppermost importance to our customers' needs, mainly the idea of not owning a car. A long-term renting grants customers three main advantages: it's cheap, easy to manage and enjoys tax benefits.

Our mission is granting people a tailor-cut assistance and constant reliability which allows to enjoy all benefits for a long - term rent of company or personal vehicles.

Our task is standing by the customer throughout the renting period, offering both operative and commercial assistance.

We offer an analysis service based on the customer's needs, we examine the real requirements as to mobility and pricing and we offer the best tailor made solution.

C-Rent is a third party company operating with the leading resting companies trading on the market dealing with multi-brand commercial vehicles.

C Rent: innovative leasing and fleet management solutions and vehicle management . It can supply any car and light commercial vehicle for short or long terms.
