Bilateral Meetings

- Tuesday (09:00 am - 01:30 pm)
- Tuesday (14:00 pm - 17:00 pm)

Description

opus automazione has been working in the following fields since 1997: - Industrial Automation - Environment (process gas analysis, CEMs, waste water analysis) - Defence and Automotive - Field Testing - NDT -RM&D It provides standard and custom products in order to satisfy any customer requests. The industrial sectors of application are: Oil&Gas, Refinery, Chemical Industry, Iron Metallurgy, Electric Production, Rubber Industry, Metalworking Industry, Food Industry, Incineration, Cogeneration, Purification, Paper Mill, Defence Industry, Automotive Industry, Railway Industry, University Lab etc. opus automazione has been certified UNI EN ISO 9001:2008 and it's crediting on ISO IEC 17025 as calibration center. FIELD OF ACTIVITY: - INDUSTRIAL AUTOMATION (Software development on PLC and DCS; Supervisory systems; Basic engineering and on detail engineering; Data/management acquisition software; Custom control systems planning - ENVIRONMENT (Design - Construction - Maintenance -Software for process gas analysis, CEMs, waste water analysis) - DEFENCE & AUTOMOTIVE (Test & Integration Bench) - FIELD TESTING-NDT-RM&D (Data Analysis - Gas Turbine & Gas Compressor)

Organization Type

SMEs

Business Offer

Process gas and waste water analysis, Hardware & Software control systems, Performance tests

opus automazione has achieved an important experience in the following fields:

- continuous monitoring analysis for process gas and waste water
- air emission monitoring
- performance test on rotating machine
- vibration analysis
- hardware and software control system construction for special machines on (ship) board, such as: sand blaster, pipe induction heaters, mould injection, PP application, chamfer heaters, etc.)

The young and dynamic business structure guarantees a quick after sales assistance.

opus looks for technical and commercial partners to increase its operating range, in addition to offer its products and services.

Keywords: emissions process gas waste water performance tests vibration analysis hardware software

Cooperation Offered

1. Technical co-operation
2. Sales / Distribution
3. Other

Cooperation Requested

1. Technical co-operation
2. Sales / Distribution
3. Other
