Business Request

We manufacture make up machines for bakery sectors.

Since 1957 we have been manufacturing special custom made solutions for the bakery industry, designing fully automated industrial lines, as well as artisan style compact machines to produce an wide variety of baked items: bread snacks (like flat crisp breads, grissini, bagels, crackers), speciality breads (ciabatta, baguette, focaccia, tin bread), cookies, cupcakes and any type of gluten free bakery products.

As a worldwide market leader in forming machines and make up lines, MINIPAN acts as a partner to all those companies who are willing to give taste to a shape: to transform an idea into a product, with reliable, flexible and state of the art equipment.
